GREETINGS

TO YOU:

We wish to thank you for your liberal patronage during the past, and it is with pleasure that we express our deep appreciation for your most valued and interesting letters telling of the delight and happiness our Dahlias have given you. It is in this way we are enabled to give you much valuable information as to which Dahlias do best in the various sections of the country.

We know you will be pleased to hear that we won by far the greatest number of prizes this year at the 1922 Annual Dahlia Exhibition at the Palace Hotel, given by The Dahlia Society of California; in which we won TWENTY-THREE PRIZES—thirteen First Prizes, seven Second and three Third, including First Prize for the "Best Fifty Blooms" of one variety, in which we displayed "KITTY DUNLAP," the American Beauty Rose colored Dahlia; First Prize for the "Best Twenty-five Blooms of One Variety" with the great Dahlia "AMUN RA," The Egyptian God of the Setting Sun, and they were magnificent and the sensation of the show; First Prize for the "Best Twelve Blooms of One Variety" with "Georgeous," and the First Prize for the "Best Basket of California Dahlias."

The new varieties of Dahlias have found a permanent place in the heart of the flower lover, and in the display window of the florist.

We are now sending our tubers not only to all portions of the United States, including Alaska, Hawaii and Philippine Islands, but to Canada, England, France, China, Japan, Central and South America, Australia, New Zealand and to South Africa.

Our new garden on Mission Street has been a wonderful success—the flowers beautiful beyond all expectations—where you are cordially invited to visit during the blooming season. Take any of the Peninsula busses, or street cars going to San Mateo or Cemeteries and stop at Sickles Avenue (the end of the five-cent fare), where you will see our garden to the left.

Our office will remain at 607 Third Avenue, where all orders and communications should be addressed.

JESSIE L. SEAL

607 Third Avenue, San Francisco, Calif.

Full directions for planting and growing fine Dahlias are enclosed with each order. They include valuable hints for preparing the flowers for decorations and exhibitions, also explaining the necessary qualifications of flowers for competition, whether they should have open or closed centers, and many other puzzling points connected with exhibiting. We feel confident that we can be of great assistance to you, as we have had wonderful success in receiving prizes in all the exhibitions in which our flowers have been displayed.

Order Early—Directing us when to send them. Early orders are solicited to prevent disappointment in case our stock of those selected has been depleted. If you do not find the varieties you want in this selection, write us. We have many of which stock is too limited to catalogue.

Substitution—We do not substitute unless requested, but it is well to mention a few varieties that you are willing to have substituted should some of those selected by you be sold out.

Assortments—Dahlia assortments of our own selection of extra value and liberal counts, \$5.00 doz., \$10.00 doz., and \$15.00 doz. Selections left to us by those unacquainted with Dahlias will be generously dealt with, and the better varieties only sent.

Terms—Remittance with order. All retail orders are delivered prepaid.

We Guarantee all tubers true to name, and also their arrival in good growing condition. We cheerfully replace any that should prove otherwise. Kindly notify us at once. Orders are carefully filled from selected field grown divided tubers. We do not substitute unless requested.

Although every precaution is taken in packing, we do not guarantee tubers against freezing if sent before March fifteenth.

Amun Ra
(The Gold Medal Dahlia)

The Greatest Dahlia of the Age!

†AMUN RA—THE SUN GOD

“And each is covered with copper and gold, and shall be seen from untold distances, and the land shall be flooded with their rays of light.”—(From an ancient Egyptian papyrus.)

Amun Ra, the winner of the 1921 Gold Medal, again was the sensation of the 1922 Dahlia Exhibition of The Dahlia Society of California! WINNING A FIRST PRIZE for the third consecutive year! This immense decoration, resembling a glorious setting sun, is a mystery in color and unlike any color combination known in a Dahlia. The outer petals of the mammoth blooms are of gorgeous shades of copper and orange, shading to gold and amber, and deepening in the large, full center to a rich, dark, reddish bronze. This new metallic coloring appeals to all. A well-known artist gave this description of Amun Ra: “The glint of a topaz that is placed near a bit of old Chinese lacquer would suggest the tone of Amun Ra. To call it a glorified burnt orange hardly does it justice.” The stems are wonderful—erect and stout—and hold the immense blossoms well above a strong, vigorous plant. The blossoms keep for days when cut and last indefinitely on the bush. We used many of these beautiful blooms in large decorations the past season, and on every occasion they created a sensation.

The color picture does not do the flower justice, as it is impossible to reproduce the indescribable shading and metallic luster.

We have received so many kind letters from our customers throughout the entire country—especially from the Eastern portion—telling of the success and prizes won with this magnificently colored Dahlia. Many consider it the finest Dahlia ever introduced.

As we have a large stock of Amun Ra, we have reduced the price to \$7.50.

Its glorious color—golden copper deepening to a rich red bronze—and the novel formation, made this Dahlia the center of attraction.”—(Extract from *The Dahlia Society of California's Bulletin*, November, 1920.)

The Peony or Art Dahlias are of recent introduction, and are extremely popular. Flowers are large, having two to five rows of petals, very broad, and artistically twisted and curled. They usually show the golden center, and have small curling petals clustered around it. They are free flowering, and their long, straight stems make them a beautiful growing and cutting variety.

This is one of the finest Peony Dahlias we have ever grown. The vase of these glorious blossoms which won for us the First Prize—"For the Best Twelve Blooms of One Variety"—at the last Palace Hotel Show, was one of the features of our exhibit. \$3.50.

It is a glowing rose pink, deepening in the center—one of the most charming of all colors. There is a suggestion of yellow at base of the petals. The flowers are large, of a perfect Hybrid Show type, without the stiffness of the Show Dahlia, and keep unusually well when cut. - One could not wish for a more beautiful garden display than seeing the low growing plants laden with these huge pink balls, held high on long, graceful stems, one of our bushes having as many as fourteen blooms at one time.
- Betty Bird received the GOLD MEDAL for the best three-year-old seedling at the Dahlia Society of California's Exhibition at the Palace Hotel, 1918. We have never been able to raise enough of the Dahlia to supply the demand for tubers. Stock limited. Tubers, \$5.00.

Some Prize-Winning Features of Our Exhibit

At the request of many of our patrons who were unable to attend the recent 1922 Exhibition of The Dahlia Society of California, we are describing some of the most beautiful features of our exhibit which were awarded First Prizes, and mentioning the Dahlias used. Although we were equally successful in other shows, lack of space confines us to descriptions of the outstanding features only of our exhibit at the Palace Hotel.

The "Most Artistic Basket," which won for us the First Prize was unusually beautiful this year. Dozens of Dahlias of glorious shades of gold, copper, bronze and Autumn tones made this basket a bewildering array of color. At least a dozen blooms of "Amun Ra" were used, as no other Dahlia has such magnificent coloring; Golden Glow, Gloriana, Gorgeous, Elizabeth Boston, Paul Michael, John Lewis Childs, Judge Marean, Mrs. R. R. Strange, Mabel B. Taft, Ruth C. Gleadell, John Dough of Oz, Maryan, Patrick O'Mara, Shower of Gold, San Francisco and Theodore Vail were also used, making a wonderful and very beautiful effect with their gorgeous blending of color. This magnificent basket of Dahlias was placed high in a deep window recess, and the sunlight, shining through the golden amber curtains, glorified and enhanced the beauty of each blossom.

In the "Best Basket of California Dahlias"—which won for us the First Prize—were used pink and lavender tones. The blending of these different shades made an unusually beautiful effect, especially under the artificial light. In the large basket, artistically arranged as to color, were: Tryphinnie, Carolyn Wintjen, Aibonita, Jane Selby, California Superba, Mariposa, Helen Durnbaugh, Shudow's Lavender, California Enchantress, Mrs. Carl Salbach, Evelyn Adamson and Mrs. Jessie Seal. These lovely blossoms were placed in a large blue basket.

One of the most admired features of our exhibit was our entry for "The Best Basket of Cactus Dahlias," which won First Prize. The very delicate and lacey effect of these beautiful blossoms was much admired and caused favorable comment. In this exquisite basket we used: Mrs. Edna Spencer, Regent, Alabaster, Mrs. Margaret Stredwick, Ballet Girl, Curlew, Amber Glow and Mrs. C. Cooper.

Our Pompon Basket, which won the First Prize, was made up of the following richly colored Pompons: Johnny, Regulus or Little Dorritt, Sunset, Goldie, Bronze Beauty, Aimee, Edith Bryant, Kittie Barrett or Jessica, Leala, Douglas Tucker and Little Beeswing.

In an extremely tall yellow vase, necessary because of their very long stems, were twelve "Gorgeous," which won for us the First Prize for "The Best Twelve Blooms of One Variety." These glorious blooms were very striking with their gorgeous coloring.

One of the greatest effects of our exhibit was fifty "Kittie Dunlap" in a huge dark green vase. This American Beauty Rose Dahlia won for us the First Prize for the "Best Fifty Blooms of One Variety," and their remarkable beauty and fine formation made them one of the most attractive features of the exhibition.

The grandest feature of the whole exhibition was our vase of twenty-five "Amun Ra" which won the First Prize for "The Twenty-Five Blooms of One Variety." The magnificent coloring, size, stem and splendid formation of this Dahlia created a sensation. We were told by many that it was the handsomest vase of Dahlias they had ever seen.

We are the distributors of the Sies Dahlia Manual, which covers all points for the successful raising of Dahlias to perfection. This is a most thorough, comprehensive, and practical study of the Dahlia and worth many times the small amount asked. 60c.

How to Keep Cut Blooms of Dahlias

Cut the flowers in the evening if possible, and before the pollen has too well developed. Burn the ends of the stems on a gas flame; or, better still, for exhibition purposes, dip ends of stems in boiling water for about 12 seconds and immediately plunge in fresh cold water. Place in cool place or out of doors for the night.

Should Dahlias be picked in the day time, put the stems in a pitcher containing three inches of boiling water and leave there 15 minutes. Then remove to a deep vase of fresh, cold water. The less foliage the better. Wilted flowers may often be revived in the same manner.

The Dahlia Society of California

We extend a cordial invitation to all who are interested in Dahlias to join The Dahlia Society of California. Yearly dues \$2.00.

Do not be discouraged if a Dahlia from a different locality does not do well the first season it is planted. Try it again the second year, as many varieties need to be acclimated.
